

Introducing the Predictive Analytics and Data Science Hub

Dr. Bing Zhang Department of Statistics
College of Arts and Sciences

PADS HUB

PADS Hub

Formerly known as the Applied Statistics Lab (ASL), the PADS Hub has expanded the offered services and focus of the unit. The PADS Hub is comprised of three cores to meet the needs of faculty, staff and student researchers across campus and the state of Kentucky. This newly revised hub provides assistance with grant applications and statistical, analytic or data science questions.

Leadership Team

- Director, Katie Thompson, PhD
- Director of Operations, Stacey Slone, MS
- Research Assistant Professor, Greg Hawk, PhD

Data Analytics Core

Provide data analyses for collaborators in academic, industry and government settings.

Training Core

Present lectures focused on training investigators to use statistical and data-analytic approaches to answer data questions.

Methodological Core

Focus on advancing novel statistical methods to investigate unsolved data-analytic questions.
