Instruction to Access to VirtualDen
Applied Statistical Lab
Department of Statistics
## University of Kentucky

VirtualDen Provides access to general lab software on any UK faculty or students personal electronic devices (desktop, laptop, tablet). This allows anywhere, anytime access to some softwares include but not limit to, SAS, SPSS, Rstudio.

With VirtualDen, UK faculties and students do not need to download but can still enjoy the benefit of provided softwares.
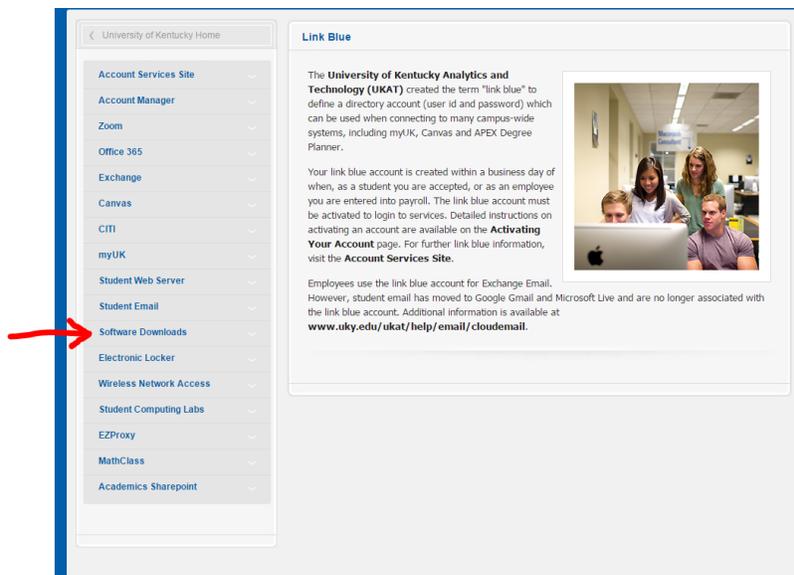

To start your journey, just take the following 5 steps:

Step 1: Please go to Citrix website to download **Citrix Receiver**. This is a free application to run softwares.
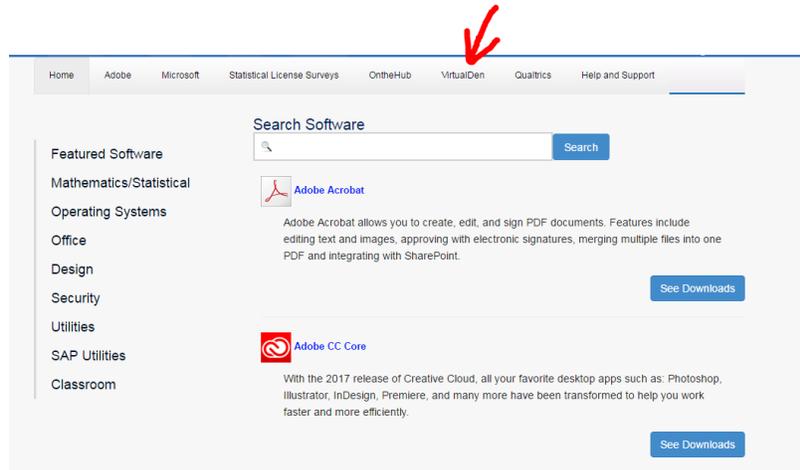

Step 2: Please go to **University of Kentucky** website, under **Resource** tab, select **Link Blue**.

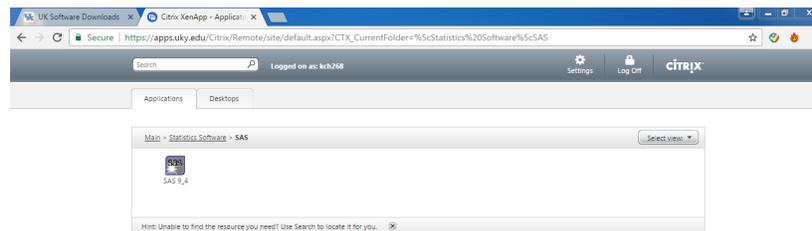

Step 3: Please go to **Software Downloads**. Login with your LinkBlue account.

Step 4: Please go to **VirtualDen**. Login with your LinkBlue account.

Step 5: Select intended software. Once selected, the system will automatically download a Citrix Receiver application. Click on the application, and you journey starts.

Notice: Any finished work "Saved" on the VirtualDen desktop will **NOT** be saved. If you want to save the file, please save to your device's local disk or your own portable driver. Enjoy!

If you have any question regard to softwares, a very helpful source is UK Tech Help, whom you can access through:

(a) W.T. Young Library Tech Help @ The Hub;
